filePro® Resources

or
"Who Has What?"
Version 2.0, February 2002

Compiled by Laura Brody

of

Hudson Valley Computer Associates, Inc.

[1] fP Technologies, Inc.

How to contact the makers of filePro
Mail: fP Technologies, Inc
8383 Craig Street, Suite 270
Indianapolis, IN 46250
Web: http://www.fptechnologies.com

	Voice	Fax	E-mail
Support	(317)570-6490	(317)570-6609	support@fptech.com
Sales	US: (800)847-4740	(212) 517-5982	sales@fptech.com
	International:		
	(212) 517-5963		
Management			filepro@fptech.com

Current Version of filePro: 4.8.12 and v5.00.09
Services: technical support of filePro, recreation of prc tables from tok tables, report bugs & get bug fixes for filePro, remove site/processing passwords, get meta password for forgotten creation passwords.
Products: filePro Plus (development & runtime programs), filePro GUI, filePro manual on CD, fP SQL, fP Transfer, jPedits, reportPro.
On their web site: file formats for filePro files (map, key, indexes, screens, output, processing tables, lockfiles, etc), filePro FAQ, environmental variables, list of filePro developers, demo version of filePro free for downloading.

[2] The Internet filePro Mailing List
This mailing list is a place to ask programming questions, announce new filePro related products or services (only once - more than that will be considered spam), announce job openings and contract work for filePro programmers or locate a prewritten filePro application or utility. The list is maintained by Bill Campbell.

To subscribe or get help, send e-mail to: `majordomo@seaslug.org`
and in the body of the message, send any of the following:

```
      help                               (for general help)
      subscribe filepro-list             (to subscribe to the mailing list)
      subscribe filepro-list-digest      (to subscribe in digest form)
```
Followed by:
```
      end
```

[3]**Hudson Valley Computer Associates, Inc.**   Voice: (914) 739-5004
P.O. Box 859   Fax: (914) 206-4184
120 Sixth Street   E-Mail: laura@hvcomputer.com
Verplanck, NY 10596-0859   Web Site: http://www.hvcomputer.com
Contact: Laura Brody, President

Services: custom programming in filePro and C, trouble shooting/problem solving via telephone/ modem, remote system administration.

Products: "filePro Developer's Journal" - quarterly publication of 50+ pages, $75 USD/year. Subscribers download a PDF file and print issues themselves. Laura's filePro Help Files and Quick Reference Guide for filePro v5.0". It includes all hlp files and a printed quick reference guide.

Demos & downloads: latest version of this document, the filePro FAQ, filePro Purity Test, free 14 page sample issue of "filePro Developer's Journal", shareware calendar library routine (requires v4.8 or higher). A list of all filePro environmental variables, an on-line directory of filePro developers, utilities & services. Back issues of a free e-mail newsletter, "Ask the filePro Goddess". Many scripts, programs, documents and utilities from many sources in the public download area of the web site.

Other: maintainer of the filePro FAQ (on web site), ringmaster of the filePro WebRing, part of the filePro development team for 8 years, creator of the "filePro Purity Test".

Areas of Expertise: all things filePro, PCs custom built, upgraded and repaired (A+ certified repair shop).

[4]**Howard Wolowitz**   Voice: (203) 270-7052
16 Main Street   Fax: (203) 270-9189
Newtown, CT 06470   E-Mail: howiewz@beonthenet.com
Contact: Howard Wolowitz   Web Site: http://www.photobuff.com

Services: custom programming, filePro/webpage integration, filePro training, troubleshooting.

Products: Medical Office System, fP Web, fP Notes (easily add a full-featured "notes" field to your application)

Demos & Downloads: fP Web demo, fP Notes demo, "Poor person's word wrapper", "Browse lookup auto complete", photo gallery of people famous in the filePro community.

Other: Original filePro programmer, interviewed in "filePro Developer's Journal" vol. 1, number 2.

Staten Island, NY 10314   E-Mail: flowersoft@compuserve.com
Contacts: George Simon, Allison Mauro.
Services: custom programming
Products: Complete floral applications package. Serving the florist trade since 1984. Single-user: $695 multi-user: $1295. Single or multi-user Quickstart version of filePro to be owned or purchased by user. DOS LAN version recommended.

[12]Akers Consultants, Inc.   Voice: (615) 822-6373(Leave Message)
Hendersonville, TN   Fax: (615) 822-2648
Contact: William P. Akers   E-Mail: wmpakers@akersconsultants.com
                                               Web Site: http://www.akersconsultants.com
Services: Bar coding, Windows-Unix Integration, data export to and from other programs, transfer Tandy 6000 applications to modern PCs.
Products: Pawn Shop program, specific to Tennessee, North Carolina and a few surrounding states $995.00 for 5-users, Unix or DOS/Windows. Vinyl window manufacturing (Unix Only) call for pricing.

[13]Fraternity Printing Co Inc.   Voice: (513) 542 5054
1718 Blue Rock St   Fax: (513) 542 0754
Cincinnati OH 45223-2599   E-Mail: tom@fraternityprinting.com
Contact: Tom Pancero, President
Services: converting customers database info to our mail list format, perform CASS certified Address Matching, prepare the data for the US Postal Service bulk mail rates, prepare all the paperwork for the USPS, and handle expediting any troubles with the USPS. All data conversion is done on SCO Open Server 5.05 and filePro v4.8. The mail preparation software has been certified for accuracy with the USPS P.A.V.E. program. (Presort Accuracy Validation and Evaluation testing).
Products: Address Parser - acts like a very sophisticated edit and breaks down the address line info into its component parts. IE House #, Street name, Pre-fixes, Suffix, Pre/Post-directionals. PO Boxes, Rural Route format, works well for all areas for the US including some of the 'Exceptional format' areas like Utah and Wisconsin. Comma Delimited file conversion - takes a comma delimited format, pads each record to a length greater than the longest line in the file, and splits each field into a dummy variable. Unique processing includes, but is not limited to, intelligently combining Address-1 and Address-2 fields, parsing the NAME field, (Mr. Thomas B.Pancero Sr.)
Areas of Expertise: USPS address formatting, bulk mailing.

[14]Idaho Telecom Service   Voice: (208) 529-1042
265 Elmore Ave   Fax : (208) 528-2465
Idaho Falls, ID 83402   E-Mail: rickf@idatel.com
Contact: Rick Furniss, President   Web Site: http://idatel.com/~rickf
Services: Custom programming, filePro/webpage integration, systems analysis, programming, networking, training in filePro, Unix, Linux and Windows.
Products: Automotive repair business, (AP,AR,PR,INV,WO,PO,WOtrack) (Unix). School Administration (k-12) all functions including accounting. (Unix)
Areas of Expertise: OS: (all UNIX) Linux, SCO, HPUX, NT4, Win9X. Net: WAN/LAN's, NT Domains, Peer/peer, routing, firewalls, NFS, Samba, NetBEUI, JetDirect/LPD/lpr, rs232/serial, modems, broadband, DNS, Sendmail. Languages: C, Basic, Assembly, Fortran, filePro, Perl, all Unix tools, HTML Web development, CGI scripting. Bar-coding, PCLprinter, SMTP, pop, imap, DNS/bind.
Freeware: C program for converting Big to Little Endian filePro screens, outputs, including 4.8 Unix versions. Bi-directional. IE: HPUX<->Linux
